ADAPTATIONS TO THE OCEAN

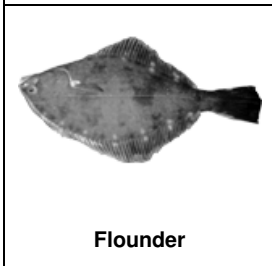

The animals that live in our seas and oceans live in a very special environment. They can move in any direction (3D); may have to travel huge distances; overcome strong currents. These animals must have many special features to help them survive. The special features that animals have to help them survive within their environment are called *adaptations*.

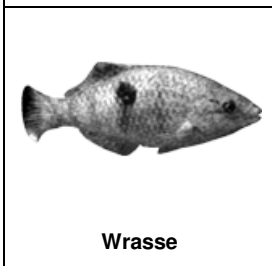

1. **Scorpionfish** adaptations:

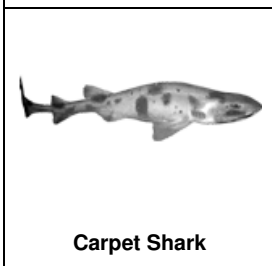

2. **Kingfish** adaptations:

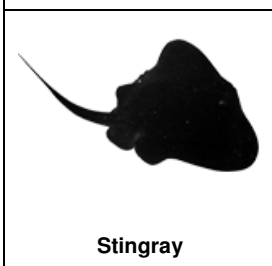

3. **Flounder** adaptations:

4. **Wrasse** adaptations:

5. **Carpet Shark** adaptations:

6. **Stingray** adaptations:
